

# Soft Care™ Line

One solution for all your hand care needs

---

## Soft Care Line brings you:

- ▶ Assured quality, choice and flexibility
- ▶ Simplicity
- ▶ Increased hygiene

## Assured quality, choice and flexibility

Soft Care Line provides a choice of high quality personal care products delivered via one convenient dispenser. The system consists of an extensive and compatible range of handwashing creams, disinfectants, branded products and specialist skincare products. All of these are interchangeable making Soft Care Line the most flexible system on the market.

## Simplicity

Soft Care Line products save you time and effort. The colour coded cartridges can be changed in seconds and the dispenser is easy to install. As there are no drips, clogging or potential dirt traps, it is easy to keep clean. A window in the dispenser makes it simple to see which product is in use and how much is left.

## Bedre hygiejne

Soft Care Line products are packed in hermetically sealed pouches with an integral dosing pump. This ensures that the contents is free from contamination and that the pump and nozzle are disposed of after 800 shots, avoiding the risk of bacterial build-up.

# Soft Care™ Line

One solution for all your hand care needs

## Compact stylish dispenser

Moulded in ABS plastic the dispenser is strong, easy to keep clean, impact resistant and will not corrode.

Simple "pull button" operation encourages regular use.

A transparent panel in the front of the dispenser enables the user to view the product name and the level of the contents. Easily fitted to any surface, either with integral self-adhesive pads or with the screws provided.

## Soft Care Line Dispenser

Product code: 7514295

## Unique cartridge and pump system

Hermetically sealed pouch ensures that the products cannot be contaminated by hand or airborne bacteria.

Patented bellows pump ensures that a wide variety of different products can be dispensed.

Cartridges can be changed in seconds, saving valuable time.

Each cartridge contains 800ml, enough for about 800 shots.

Cartridge and pump are disposed of when finished, minimising the risk of clogging and crosscontamination.

The bag separates easily from the box and, since the pump and bag are both polyethylene, can be easily recycled.
